BudHI
ALWAYS THERE. ALWAYS CARING.

Companionship and care for seniors

Everyday support for seniors.
Practical help for care teams.

ALWAYS THERE. ALWAYS CARING.

For government organizations, municipalities and service flats

A familiar companion, every day

BudHI offers conversations, regular check-ins and personalized reminders that support everyday routines. It helps seniors stay connected, with authorized family involvement and continuity between visits.

Support for organizations and healthcare personnel

Shared context: authorized summaries and information help teams prepare visits and coordinate support.
Routine follow-up: configured reminders, alerts and workflows help focus human attention where it is needed.
Resident communications: schedule HI calls and emails for events, bingo nights, weekly lunch menus and lunch bookings.

Features that support everyday wellbeing

Cognitive games and shopping support complement companionship. **Longevity** adds video exercise routines with progress tracking and group activities, plus healthy-food baskets based on preferences. Purchasing uses configured controls and available supplier integrations.
